- Migration project experience from SAP ECC Servers in APO, EWM, Freight Price Computation.
- Experience in working with multiple data sources in multiple servers.
- Basic knowledge of SAP ERP business processes (SAP ECC or S/4 data model)
- Maintain amenable relationship with all stakeholders.

TECHNICAL SKILLSET

SAP Business Intelligence	SAP BW / SAP BO / SAP HANA
Programming Languages/Framework	Python, SQL
Database	SAP-HANA, SQL
Web Designing	HTML, CSS, XML
Dashboard Creation	Tableau
Project Methodology	Agile, Waterfall
Servers	RP2, AP1(APO), AP2(EWM),
Domain Reporting	Petrochemicals, Logistics, APO, CRM

EMPLOYMENT HISTORY

Company Name	Designation/Role	From	To	Duration	Current Company
Reliance Industries Limited	Senior Business Analyst	Aug-2017	Present	3 years 8 months	Yes

EXTERNAL CERTIFICATIONS

- Master Python for Data Science
- NLP with Python for Machine Learning Essentials
- Business Analytics Foundations: Descriptive, Exploratory and Explanatory Analysis
- Building Deep Learning Applications with Keras 2.0

PROJECT EXPERIENCE SUMMARY

Project #1

Industry/Domain	Logistics
Company/Employer	Reliance Industries Limited
Duration	Jan,2020 – Feb,2021
Role	Senior Business Analyst

Tools & Technologies	SAP HANA, SAP ABAP, SQL
Project Description	Migration of reports for Freight Calculation and Pricing of a different Company Code aiding RIL for transport related activities.
Responsibilities	<ul style="list-style-type: none"> ➤ Designed functional and technical specifications for SAP BI implementations ➤ Involved in implementing role based authorization for BI report this involves in plant, Profit center, and sales organization etc. ➤ Led the architecture and design of the open hubs to facilitate the SAP BI data to the downstream systems and creating ALV Reports ➤ Created SAP HANA Views and Procedures to build the logic from separate source systems ➤ Development, Unit Testing, Code Review, Creating the release plan for Go Live

Project #2

Industry/Domain	Petrochemicals
Duration	Aug,2018 – December.2019
Company/Employer	Reliance Industries Limited
Role	SAP HANA Developer/Functional Consultant
Tools & Technologies	SAP- HANA, Tableau, Python
Project Description	Business Command Centre: Development and Enhancement of Tableau Dashboards for end –to-end business processes by identifying crucial KPIs and Dashboard Creation in Sales, Inventory, Logistics and CRM.
Responsibilities	<ul style="list-style-type: none"> ➤ Involved in Modeling/Designing and implementing data warehouse solutions using SAP BI 7.4 using with SAP ECC for KPI implementation. ➤ Created Data Transfer Process (DTP) to transfer data within BI from PSA (Persistence staging area). ➤ Involved data replication from SAP ECC to SAP HANA via SAP Landscape Transformation (SLT) had created HANA-optimized DataStore Object. ➤ Created HANA views, procedures, SQL Queries to create Tableau Data Sources ➤ Led the preparing of architectural diagrams, functional design documents and technical design documents. ➤ Developed Executive Dashboards for Higher Management (Regional Managers and Supply Chain Directors). ➤ Development, Unit Testing, Code Review, Creating the release plan for Go Live

Project #3

Industry/Domain	Supply Chain Planning
Duration	Aug, 2017 – Nov,2018
Company/Employer	Reliance Industries Limited
Role	SAP HANA Developer/Functional Consultant
Tools & Technologies	SAP HANA, Tableau, SQL
Project Description	Development and Enhancements of reports related to different Planning KPIs.
Responsibilities	<ul style="list-style-type: none"> ➤ Developed Native HANA Calculation Views to expose the Planning data to Third Party Reporting tool (Tableau Dashboards). ➤ Worked on executive dashboards for SNP Plan which tracks the contribution to each regional office for sales at the beginning of the day ➤ Established the recommended SAP best practices for developing Universes, reports and dashboards from HANA data sources. ➤ Created new dashboard & modified existing Forecast Accuracy dashboards which had poor performances and improved their performance. ➤ Developed Executive Dashboards for Higher Management (Regional Managers). ➤ Development, Unit Testing, Code Review, Creating the release plan for Go Live

Project #4

Industry/Domain	Vendavo – Profit Analyzer
Duration	July,2019 – Jan,2020
Company/Employer	Reliance Industries Limited
Role	Senior Business Analyst
Tools & Technologies	SAP ABAP, SAP HANA, Crystal, Informatica, SQL.
Project Description	Implementing a pricing report in Finance with all the pricing components and implementation of a ETL architecture through Informatica to load the data from BI to Vendavo.
